

# superbet I

Hedging bets is by far the most successful betting strategy. This is where you're able to place multiple bets to cover all possible results and still make a profit regardless of the outcome of the match.

For example, if you bet on a team to win, you can also bet on a draw and the team to lose. This way, you are covered in all scenarios.

To put it simply, if the bet wins, you win. If your team either has to win or end up in a draw, you still win.
