However, in a typical 82-game regular season, teams generally need to win around 45 games to secure a playoff spot. This can vary depending on the strength of the conference and the performance of other teams in the league! Keep in mind that this is a general estimate and may not hold true for every season. Theoretically, how many wins does an NBA team need to make the playoffs? Quora estimates that 45 wins are needed to make the playoffs, with the top six teams in each conference and eight from the Western Conference guaranteed spots, and seeding based on regular season record.
